

Mini Crawlers

Used Mini Crawler Santa Ana - Our various programs for Mobile Crane Operation are designed for experienced operators who requires certification or re-certification, and for inexperienced individuals who are seeking their very first job as an operator of a crane. Industry demand for crane operators who are certified is high all around the country. Positions for crane operators are high due to their high rates of pay. Operators of cranes are among the highest paid of whichever heavy equipment operator. Our Crane Operator training offers instruction for different mobile cranes. Course content comprises Wire Rope, Crane Set-up, Load Dynamics, Lift Planning, Load Charts, Rigging, and Signaling. The program is best for crane riggers, operators and their supervisors. The materials included in the course will include a guidebook and numerous informative handouts. The safety instruction manual that is illustrated features one hundred to two hundred fifty pages, which depends on the course, of vital and useful material. Course materials include load charts and load chart exercises for the crane with which the trainee is working. Hands-On Safety Training would take up more than half of the course curriculum. The practical training section is the most helpful method to developing and improving personal skill levels. Just experienced journeyman crane instructors are chosen to teach the courses. Our instructors have many years of industry experience. Optional testing mechanisms are offered for all of our courses. Students will usually write tests both prior to and following training. A test for skills is generally administered for programs that include H.O.S.T. Trainees would be graded and tested. We offer certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; Certification & Testing; and In-The-Seat Training. Industry standards of practice are changing as new industry requirements emerge. There are continual updates to legislation and regulations. Enhancements in equipment and technology continue to be made. Industry data analysis and collection identify trends that are changing. Members maintain the privilege of managing their training programs and certifications. Mobile device alerts keep members abreast of workplace and personal safety news.
